

**ISO 37001**  
MANAGEMENT SYSTEMS  
CERTIFICATION

An ISO 37001 Anti-bribery Management System helps your organization prevent, detect, and address bribery by promoting an ethical business culture.

It demonstrates that your organization complies with globally recognized anti-bribery best practices and shows your competence with implementing and managing an Anti-bribery Management System.

ISO 37001 certification is a third-party audit performed by a certification body such as PECB who upon verification that an organization is in compliance with the requirements of ISO 37001, will issue an ISO 37001 certificate. This certification is then maintained through regularly scheduled annual surveillance audits by the certification body, with re-certification of the Anti-bribery Management System performed on a triennial basis.

#### **Benefits of ISO 37001 certification to your organization:**

- Reduces the risk of bribery
- Promotes an ethical business culture
- Improves performance of affected anti-bribery processes
- Demonstrates employees' commitment to anti-bribery best practices
- Monitors and manages bribery risk throughout your business
- Demonstrates that your organization has implemented, maintains and improves its anti-bribery compliance program

#### **Benefits of ISO 37001 to your customers:**

- Ensures legislative and regulatory compliance
- Establishes trust and credibility with customers
- Demonstrates commitment to anti-bribery best practices
